COLLEGE SCHOOL:

Besides the College at Hertford, the Company patronize a School subordinate to it, and under the superintendence of the Principal, into which boys may be admitted at an early age, and in which they will be taught the elements of general learning, and such other accomplishments as are the usual objects of instruction in the larger seminaries of this country. Especial attention will be paid also to such parts of education as may serve to qualify them for public business, and for the higher departments of commercial life.

Though this School be designed as introductory to the College, it is not to be understood that the Company is pledged to make it the sole channel of an appointment to the College itself; but it is nevertheless proper to observe, that those who shall have passed through both institutions will enjoy the advantage of an uniform system of education, begun in early youth, and continued to their departure for the duties of their public stations.

Notwithstanding that an intimate connection is intended to subsist between the College and the School, it is nevertheless to be understood, that, whilst the College is exclusively appropriated to persons designed for the civil service of the Company abroad, the School will be open to the public at large.

The Rev. M. H. Luscombe, A. M. of the University of Cambridge, is appointed Head Master of the School; to whom the annual sum of seventy guineas is to be paid for each pupil; which, without any additional charge, will include, besides the usual course of classical instruction, the French language, writing, arithmetic, mathematics, drawing, and dancing.

Second. All natives, excepting those actually in the Military Service of the Company, or belonging to persons specially exempted by Government from the operation of this rule, are forbidden to wear a dress similar to that mentioned in the fore-

going clause.

Third. Officers of every description, employed in the service of the Company, who are allowed establishments of peons, in their official capacity, or who may have occasion to employ persons of that description, in such capacity, are prohibited from cloathing them with a military dress.

Fourth. With the view of giving full effect to the orders contained in the preceding clauses, the Military Commanding

The local Officers of police are also empowered and directed to apprehend all persons of the above description, and to send them to the Magistrate, who

Fifth. Military Officers, or other persons, to whom escorts may be allowed, when travelling through the country, are forbidden to send sepoys or lascars into the villages, for the purpose of procuring any sort of provisions or of pressing bearers, coolies, or boatmen. Every local Officer of police, upon proper application, will, under Sec ion VIII, of this regulation, grant such assistance as he may be able to afford; and all violent measures, therefore, will be considered equally illegal and unnecessives.

G. GARROW,

PASSPORT REGULATIONS.

THE Right Honorable the Governor in Council having reason to be satisfied of the total inefficiency of the present practice of regulating Passports, either to prevent the passage of unauthorized travellers, to trace the route and the pretensions of those of doubtful character, or to ensure the free progress of those who are duly authorized, has been pleased to establish the following orders for the regulation and controul of all Passports granted under the Presidency of Fort St. George.

1st—That from and after the 1st of June next, the Secretary of Government in the Public Department shall be charged with the general controul and direction of all Passports granted within

the territories of Fort St. George.

2d—That Passports of the prescribed form, capable of being recognized by Natives as well as Europeaus, in sewed Books with a Cheque Margin for the insertion of the name of the person and No. and date of the Passport (for the purpose of preventing forgeries by comparison when returned) shall be issued by the Secretary of Government to all persons who shall be authorized to grant them, viz. To the Resident in Mysore, and to all Collectors for their respective Districts, with an exception of Sea-ports where there is a Commerical Resident, who will always regulate the Passports of the port where he resides; To the Town Major of Fort St. George for Military persons belonging to that garrison; to the Adjutant General of the Army for all other Military persons leaving the Presidency; and to such

Officers Commanding Military stations as shall be authorized to grant Passports. These stations shall be determined in the first justance, and from time to time when any changes of stations may occur, by the Secretary of Government in communication with the Adjutant General of the Army. The Secretary of Government will himself regulate the receipts and issue at the Presidency of all Passports to persons not Military.

3d-That all persons authorized to grant Passports shall keep a register in a prescribed form (blank Books of which will be likewise transmitted) of all Passports received, and

another of all Passports issued.

4th—That all Travellers, on arriving at a station, shall deliver their Passport to the proper Officer, who shall register its receipt in the same manner as on granting one, and if the bearer proceeds farther, shall issue a new Passport in exchange, noting on the old one the date of its receipt, and at the end of each mouth sending by the Post all Passports received, to the

person by whom they appear to have been granted.

5th—That the Secretary of Government in the Public Department shall keep a General Register of all Travellers and Passports granted, to enable him to correct which, all Public Officers, authorized to grant or receive Passports, shall transmit to him monthly a copy of their register of Passports granted and received during the month, and shall be held responsible for the application of the exact number of Blank Passports with which they have respectively been furnished by the Secretary.

6th—That Passports to Military persons shall be granted by Military Officers exclusively, and to all other persons by Civil Officers exclusively, but in cases of urgency, a Military Officer, in the absence of the Civil authority, and a Civil Officer in the absence of the Military authority, may pass a Traveller to the next Post or Station, by endorsing his Passport with the words "Pass to "noting the date gentering in his register the particulars of the Passport, in the same manner as it he had granted a new one; and entering the word "endorsed" in the column of remarks.

7th-Any Traveller stating that he has lost his Passport shall invariably he detained, until a duplicate shall have been

obtained.

8th - Public Officers having received a Passport authorizing them to travel post on the public service, shall not be compelled to wait for the exchange of their Passports, nor be subjected to any part of these Regulations which involve delay.

9th-All Public Officers authorized to grant or receive Passaports, shall report to the Secretary of Government any irregular

rity or deviation from the established rules which may come under their observation, together with all remarks regarding the conduct and apparent views of Travellers, which may appear proper and necessary to be communicated for the purposes of farther enquiry. And all Public Officers authorized to issue Passa ports are also empowered on sufficient information of incorrrect conduct or improper views, to refuse a fresh Passport for the continuance of a journey already commenced; (reporting the detention to the Secretary of Government by the post of the day) or even to restrain until further orders the person of the Traveller, if such a measure shall in their judgment appear to be necessary.

10th - For the convenience of official arrangement all letters relating to Passports shall be superscribed "Passport

5 Service."

MEMORANDUM.

Exclusively of the Regulations which shall be published for general information, it may be proper that all persons authorized to grant Passports should be furnished with instructions for their guidance in granting or refusing them.

The following are supposed to embrace all the material con-

siderations.

1st—To guard against the intrigues of foreigners in the interrior of the country either among our own feudatories or subjects, or at the durbars of independent Native Powers, constitutes the main object of these regulations. To prevent foreigners from acquiring local information, though an important, is but a secondary consideration; and lastly, these regulations are intended to restrict the settlement of Europeans in India by indirect means.

2d—No Passport of any foreign Governor, can be considered of validity to pass a Traveller a single mile through the Company's possessions, but Public Officers stationed near a foreign settlement, will concert with the foreign Governor, or other constituted Authority, according to local circumstances, the means of furnishing Travellers from such Settlement with the requisite English Passports on proper occasions.

3d—The routes of foreign Travellers for commercial purposes will be generally by the sea side, and every proper facility should be efforded to that line of communication. But no foreigner must on any pretence be furnished with a passport to travel inland, or even to deviate from the road nearest the shore,

without the special authority of Governments

4th — English subjects who are not in His Majesty's or the Honorable Company's Service, should in like manner be restricted to the road nearest the shore.

2th—All Public Officers who may be authorized to grant Passports, will as soon as may be practicable after the receipt of these instructions transmit to the Secretary of Government, descriptive lists of all Europeans not in His Majesty's or the Company's service residing within the limits of their respective authority; with their opinion regarding the expediency of licensing the farther residence of each individual. The Secretary will return certificates for such as the Governor in Council may think proper to license, and all Europeans not in the service, who shall not possess such certificates on the "first day of Aus" gust 1802," shall be sent to the Presidency for the purpose of being embarked for England.

6th—From and after the above date;—no Passport shall be granted to any European not in the Service, who resides or states himself to reside at any English port or station, nor to any British subject residing at a foreign settlement, who does not possess such certificate of license, but Mariners or Traders, whether British or Foreign not resident in India, who may desire to pass from one port to another for commercial purposes; shall be

furnished with Passports without hesitation.

N. B.—The Certificate should include a description of the person, and should grant conditional permission to reside at the town of "subject to be sent to Europe at the shortest notice whenever the Government shall think fit.

FORT ST. GEORGE, 21st April 1802.

OTICE is hereby given, that from and after the first day of July next, no European person of whatever rank, description, or country, will be permitted to travel through the Company's dominions subject to this Presidency; unless he shall be regularly furnished with Passports for that purpose.

The only exception, which the Right Honorable the Governor General in Council has been pleased to make to the foregoing resolution, is in favour of Officers Commanding parties of His Majesty's or the Honorable Company's Troops.

All persons about to travel are accordingly required to take out a Passport, from the Collector of the district in which they may reside, or in places where there may be no Collector, from the Commanding Officer of the nearest garrison, which Certificate or Passport shall be produced to the next Collector or Commanding Officer, who are authorized to cancel it, if necessary, and to issue a fresh Passport.

And European persons of all descriptions are hereby warned, that whoever shall be found travelling without a Passport will be taken up and confined until a report of his case can be

made to the Presidency.

Notice is hereby further given, that a reward of Ten Pagodas will be paid to any person who shall take up and bring into the nearest garrison, any European deserter or vagrant of any description.

FORT ST. GEORGE, May 25, 1799:

In addition to the Government Advertisement published on the 25th of May 1799, prohibiting Europeans of every description from passing thro' the Company's dominions subject to the Presidency, without a regular Passport—The Right Honorable the Governor in Council is hereby pleased to give notice, that from and after the 1st day of June next ensuing, any European of whatever rank, description or country, who shall be discovered, passing thro' the territories under this Presidency, beyond fifteen miles from Fort St. George, without being furnished with a regular passport, will be taken up and confined until the pleasure of Government shall be known.

2d—The only exception which the Right Honorable the God vernor in Council has been pleased to make to the foregoing resolution, is in favor of Officers Commanding parties of His

Majesty's or the Honorable Company's Troops.

3d-For the more strict execution of this order, notice is hereby further given, that a reward of ten Pagodas will be paid to any person who shall take up and bring into the nearest garrison, any European Deserter, or Vagrant, of any description's 4th—The following are the Officers by whom Passports will be issued on application.

FORT Sr. GEORGE, May 15, 1807,

THE Right Honorable the Governor in Council has been pleased to adopt the following modifications in the Regulations which have been established with regard to the issue of Passports.

It is directed that in future all Foreigners who arrive at Madras, do deliver their Passports at the Police Office in person, and that no Passports be issued to Foreigners, except at the

Police Office. All Foreigners residing at any of the out-stations or elsewhere, under the authority of the Government of Fort St. George, or who may hereafter arrive, shall without delay report through the channel of the nearest Magistrate, Collector or other local authority, their place of residence, occupation, period of arrival and from whence they have last come, to the Police Office at Madras, and any person failing to comply with this notification, will, on discovery be placed under personal restraint.

It will be the particular duty of Magistrates, Collectors, and other local authorities where Foreigners may reside, to explain to such persons this part of the regulations, and to see that the

order is strictly enforced.

All Passports of whatever description, are in future to be translated into the Malabar, Gentoo and Hindoostany languages.

Such parts of the existing Passport Regulations, as are not

affected by the above rules, are to remain in full force.

forwarded, with the utmost expedition, to London after their
arrival at some port in Great Britain or Ireland, on which letters double postage, at the shove rates, is in tuture to be levied;
but no letters will be so forwarded unless the words 'C Double

11.—That all ship letters for the out-stations shall be liable to the rates specified in the first of the foregoing tables, in addition to the established inland postage, and on all ship letters for the out-stations upon which the Ship postage has not been paid, the words "Ship postage not paid" shall be marked on the envelope, and the ship postage thereof, as well as the inland postage thereon, shall be collected by the Post Master of the station at which the person resides to whom the letter is addressed.

That the ship postage on all letters intended to be sent by sea shall be collected from the parties, at the foregoing rates, by the Post Master of the Office into which the letter is first put, together with the inland postage which they may bear to the General Post Office.

13.—That all Newspapers, excepting the Government Gazette, shall pay postage; those within the weight of one ounce being considered single letters, and paying accordingly, and all beyond that weight, paying, prorato, according to their weight; the postage being collected at the stations to which the papers are addressed; the Newspapers, it is to be underestood, are in all practicable cases, to be forwarded by the Bangy Tappal, vide Bangy regulations.

14. That the Books published at the Asylum Press for the benefit of the Institution, and the Madras Monthly Journal shall, for the present, be forwarded by the Bangy Tappal at the rate of postage chargeable on a single letter only, the same

heing payable at all the stations to which they are directed, 15. That parcels of News Papers, &c. arriving by sea shall, in future, be charged with postage at the following rates, those of I ounce weight as a single letter, of 2 ounce weight as a double, of 3 as a treble, and so on progressively; if however there may be reason to believe that any parcel contains letters, the person to whom it is addressed will be required to open it, or allow of its being opened at the Post Office, in order that posts age may be charged, at the usual rates, on all letters which may be found in it,

As it has been determined that no parcels received by sea shall, in future, be transmitted to any inland station, unless the person to whom it is addressed shall send a request to that effect to the Post Master General, notice will be given, as early as may be possible after the arrival of any ship, of the parcels received by her, and on application in writing the parcels shall be forwarded to the persons so applying, when they will be held responsible for the postage of them, whatever may be its amount.

19 .- That hereafter the hour for the despatch of the Tappal shall be six in the evening, and the hours for the General Post

Office being open to the Public, as follows: viz.

From 10 A. M. to 1 P. M. both for the receipt and delivery of Letters, and from 3 to 5 P. M. for the receipt of Letters only. 20 .- That no letters or parcels containing money, jewels or any articles of value shall be permitted to be sent by Tappal.

21. That no detention whatever of the mails shall be allowed at any of the inland stations, and that when the Public Service shall require it, an Express shall be despatched, but at the risk of the person causing it to be despatched for any improper

abuse of this privilege.

In order to ascertain correctly that the preceding regulation has been acted upon to its full extent, a table will be prepared at the General Post Office, shewing the distance between, and probable time of arrival at each station, with which the returns; to be made by the person in charge at each station will be compared, and the Collector in whose district any delay may appear to have occurred, will be held responsible for the same.

28 .- That any Officer on duty, or leave of absence, at the Presidency, who may have occasion to correspond on the public service, shall carry his letter to the Adjutant General who, upon being satisfied that the latter is exclusively upon the public

service, will frank the same.

29 .- That all Officers similarly situated at the subordinates, shall apply to the Commanding Officers of the stations where they may then be residing,

30 .- That no Post Office packet shall in future be opened

between one station and another for the accommodation of Trad vellers, as is understood to have been heretofore the practice. but should a competent authority, or circumstances of an urgent public nature at any time render it necessary for an Officer, in the execution of his duty to open a Public Mail, it must be carefully opened and closed by the Officer himself, and an official letter must be addressed to the Post Master General explaining. under what orders or peculiar circumstances the measure was adopted.

31 .- That no letter which has once been delivered into any Post Office under this Government shall, in future, he restored, except upon an official application in writing, in which the reason for making the application must be stated, a copy of which letter will be forwarded, if necessary, to the station to which the re-delivered letter was addressed, in order to afford the means of detecting any frauds that may be attempted. It is however to be understood, that the postage will in no case be returned?

32 .- That with a view to prevent the suppression of private letters, and the misappropriation of the postage collected on them, all receipts granted in future at the Post Offices under this Presidency for letters delivered in, shall be on stamped paper, each receipt having the word single, double, treble, quadruple or packet engraved on it in the English, Tamool, Telinga and Persian characters, and specifying at the same time in writing, or by a second stamp, the station from which the letter is despatched, the place to which it is addressed, the date of its delivery into the first Post Office, and the postage paid on it.

With this facility of discovery every individual, European or Native, whose letter does not reach its destination, will be enabled to obtain redress upon application to the Post Master General : but it is at the same time recommended to the public, as an additional check, that every person do insert in a book, to he kept for the purpose, the directions of all letters sent by lappal, with the name of the station from which they are sent and the date of their delivery at the first Post Office, and likewise that the stampt receipts abovementioned may not be mislaid or thrown away, without which precautions the present regulation cannot, it is feared, have the desired effect.

The Governor in Council deems it proper to repeat that any deviation from the preceding regulations, will not fail to subject the offending party to the severest displeasure of Governe

PROSPECTUS

OF THE

MADRAS MILITARY FUND.

THIS Fund, which has been instituted by the Honorable Company's Army at this Presidency, has for its objects;—
To provide for the Families of Officers left, by their death, destitute of an adequate maintenance; and to assist Officers unprovided with aid by the Regulations of the Service, or from their own resources, under such circumstances of urgent sickness as renders a voyage to England necessary for the preservation of their lives.

This Institution holds out advantages to Subscribers of so superior a kind, that all the Officers of the Madras Army, with very few exceptions, are become Members of it—it is also honored with the patronage of the Honorable Court of Direc-

tors, by whom it is likewise liberally endowed.

It is not to be doubted, now, that the Fund has commenced operation, and the benefits derived from it are fully ascertained. that such Officers belonging to the Madras Establishment, as have not hitherto had an opportunity of becoming Subscribers to so benevolent a Fund, or were unacquainted with its existence, will readily avail themselves of this occasion for contributing, both by their Donations and Subscriptions, to the furtherance of so philanthropic an Institution, of which, though all who contribute to its maintenance, may not themselves experience its benefits, still in the uncertainties of life, it is not impossible, that some so contributing may, at some future period, by an unexpected change of circumstances, partake of its advantages: at all events, they will possess the gratification of affording their aid, to a source from whence comfort and support will be derived to the Families of many a valuable Friend. and cotemporary in the Field.

Officers in Europe desirous of subscribing, shall pay the donation of their respective ranks, together with the arrears of Subscription, from the date of the Establishment of the Fund, 1st April, 1803, if they were in the Service at that period; or otherwise, only from the date of their arrival in India; calcua

lating at the rate of one day's English pay in a month.

Any unmarried Officer becoming a Subscriber shall, upon his marriage, pay up the additional donation attaching to Subscribers who are married; that is, he shall pay ten days allowed ance of the rank he may then hold.

Any Officer proceeding to Europe on sick certificate, in conformity to the existing Regulations of the Government of Fort St. George, or such as may be hereafter framed (always provided with the declaration of two Surgeons, upon oath, shall certify a voyage to England to be in their judgment absolutely necessary for the recovery of his health) such Officer not being provided with passage money, by the Regulations of the Service shall, on making oath that he does not possess the means of paying for his passage, he entitled to receive from the Military Fund the passage money regulated for his rank; and on a similar declaration, on oath, to the Agents in England, he shall be entitled, on his return to India, to receive the sum regulated for the outward-passage.

Any Officer so proceeding to Europe on sick certificate; being provided with a passage, either at the public expense, or as above recited, who shall moreover make oath that he does not possess the means of purchasing the requisite cloathing and equipment for the voyage, shall be entitled to receive from the Fund a farther sum not exceeding 200 Pagodas; but not to any further sum on account of equipment on his return to India.—No Officer, altho' a Subscriber, who may proceed to Europe on furlough, and fall sick during such absence, is entitled to any of the benefits of the Fund, which are exclusively con-

fined to Officers quitting India on sick certificate.

Officers who may proceed to England on sick certificate, after having served four years in India, and who shall make oath, that they do not possess property which will produce an income, including their pay, equal, if a Subaltern to £140, or if a Captain Lieutenant to £160, shall be allowed such sum annually, as with their pay and other income will make up £160 to a Captain Lieutenant, or £140 to a Subaltern, during the period of furlough, as regulated by the Court of Directors.

Advances from the Fund cannot be granted to any Subscriber

going home, while in the receipt of India allowances.

Officers becoming Subscribers, within the period of six months after their first arrival in India, are not charged with any arrears of subscription; but after the expiration of that period; they have to pay up their arrears from the date of their arrival and to furnish affidavits of health.

TABLE of RATES OF PAYMENT by SUBSCRIBERS to the MADRAS MILITARY FUND, in India and in England: shewing also, the amount of sums payable to Claimants on the said Fund, separately and for Children, with the deductions from the said amounts, respectively, to which the said Claimants are liable: as also, a Table shewing what rate of Income excludes Persons from the benefits of the said Fund; with some other particulars, and allowances to Sick Officers.

SIGNALS,

for Ships or Vessels in the Offing.

S 1 G N A L S respecting Ships or Vessels in the Offing, whether Men of War, or Merchantmen, are made from the top of the Fort Square of Fort St. George, on which there are three Signal Staffs. One consisting of an upright Mast, representing the East point of the compass with a yard flung by the middle across, the Arms of which pointing to the North and South points of the compass.

Three classes of Vessels are expressed by these Signals : Ves-

sels of three Masts, of two Masts, and of one Mast,

An Ensign, or square national flag, represents a Ship of three masts; a national flag, with two points or swallow's tail, represents a Brig or Snow, &c. of two masts; and a broad national pendant terminating in one point, represents a Sloop or Cutter, of one mast.

If either of these flags are hoisted to the top of the upright staff, the vessels seen are in the East Quarter of the compass; if hoisted to the North or South arms of the cross yard, the vessels seen are in the North or South Quarters of the compass.

The number of Ships that sppear in the offing, are expressed by pendants. A white pendant signifies one Ship or Vessel; a red and white pendant, two Vessels; a red pendant, pierced with white, three Vessels; and a yellow pendant pierced with blue, four Vessels; when the number of Vessels exceed four, they are to be considered as a Fleet; on which occasion a long blue and yellow pendant will be hoisted.

If the Vessels in sight are Men of War in the East Quarter, one of the numerical pendants, will fly from the national flag of the upright Staff; if in the North or South Quarters, the pendants will fly at the extremity of the yard arm over the National flags, hoisted on the stay of the North or South Arms of the

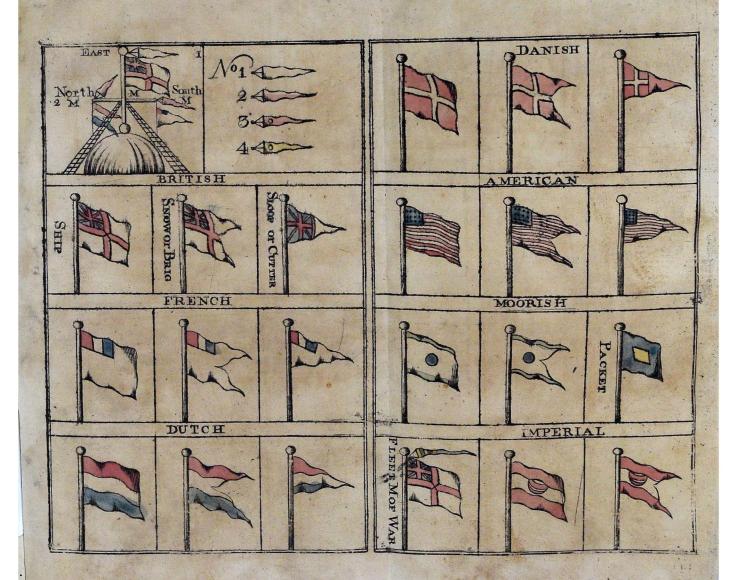

cross yard.

If Merchantmen are seen in the North, South, or East Quarters, the numerical pendant will fly under the National flags. If the ships are Indiamen, a blue pendant will be displayed as

usual under the Union flag of the Fort.

If a Fleet is in sight, one Gun will be fired after the signal for the Fleet is made, and if there are two Fleets of different Nations in the same point of the compass, the signal of the first seen Fleet, will be lowered after the space of 15 minutes, and a fresh signal hoisted, which is likewise to be accompanied by a Gun.

A Packet is announced with a blue flag pierced with yellow,

SIGNALS:

hoisted to the extremity of the Staff or Arms, expressive of the

quarter she is in.

The annexed Plate represents the Flag of all Nations, that trade to Madras; in the upper corner of which is represented the flag staff and yard, and the manner in which the Signals are made to express Ships or Vessels discovered in the North, South,

and East Quarters of the Compass.

The St. George's flag hoisted on the upright staff with a yellow pendant pierced with blue over it, announces that four sail
of British Men of War appear to the Eastward; the Dutch flag
of two points or swallow's tail hoisted on the stay of the Northern staff, and a red and white pendant over it at the extremity of the Arm, represents two Dutch armed Brigs or Snows
in the North Quarter, and a French broad pendant hoisted to
that stay of the South Arm of the cross yard, with a red pendant pierced with white flying over it at the extremity of the
Arm, represents three French armed Cutters in the South Quarter of the compass.

If the numerical pendants, instead of flying at the extremity of the Staff, are hoisted under the National flag, in the manner expressed by the latter M. they will describe the same class of

vessels to be Merchantmen.

N. B.—The blue pendant flying under the Union flag of the Fort, with the St. George's Colours hoisted upon any one of the Signal staffs, expresses an Indiaman. A yellow pendant flying under the Union flag with either of the three white flags hoisted under any of the signal staffs, represents a Spanish Vesael; and if a red pendant flies in the place of the yellow pendant, it will express a Portuguese. A blue and yellow pendant, flying over the National flag, represents a Fleet of Men of War, and under it, a Fleet of Merchantmen.

LIGHT HOUSE.

THE Light House on the Exchange in Fort St. George was serected by the Exchange Committee, with the sanction of Government, in December 1796, and is of essential service to Ships coming into the roads in the night.

The Light is 90 feet above the level of the Sea at high water; it can be seen from the decks of the Honorable Company's Ships about 17 miles, and from their mast heads near 26 miles.

The South part of Pulicat shoal bears from the Light House, N. by E. half E. distance 12 miles; and to keep clear of the shoal, the light should always bear to the Westward S. S. W. 3 W.
